Atascadero High School, Atascadero, CA— *High School Diploma*

2003-2007

SKILLS

- HTML/CSS
- BootStrap
- JavaScript
- Node.js
- GitBash
- GitHub
- SQL
- Express.js
- Sequelize.js
- Welding
- Roofing
- Tower Climbing
- Repelling

Patrick Lubak

Cover Letter

I have been with my current company, Patriot Fire Protection, for five years now. This company specializes in building fire sprinklers for residential and commercial buildings. My tasks include deciphering blueprints, listing materials required for construction, and then billing the correct job once fabrication is initiated.

My most recent interest and growing passion is complex coding. I spend many hours on Google spreadsheets making forms, scripting, and implementing web design techniques to help the company stay organized. Making tools that have never been made before really intrigues me. I find I enjoy the coding aspect so much I have enrolled in UW's coding bootcamp to enhance my skills and professional knowledge. Upon completion of my program, I will be competent in the following languages: HTML, CSS, JavaScript, Web API's, Third-Party API's, Server-Side API's, Nod.js, OOP, Express.js, SQL, ORM, MVC, Basic Computer Science for JavaScript, NoSQL, PAW, React, MERN and State. My goal is to become a software engineer and work on a collaborative and innovative team.
